

Hopper Bins

The Superior Hopper Bin allows for fast and convenient unloading of your grain. The sidewall sheet gauges are enhanced to accommodate the additional loads from hopper unloading. All hopper bins 15'-27' diameter come standard with ground control remote openers. The Superior Hopper Bottom Cone is all galvanized and has an all bolted design for easy transport and assembly. Unstiffened Hopper Bins range from 15'-27' diameter. Stiffened Hopper Bins range from 15'-30' diameter and up to 12 rings high.
